

Balloon Dryer System

Balloon Dryer is an intelligent easy to use system that automatically efficiently dries up to 4 balloons within 2 minutes.

Features:

- Detects balloon leakage and alerts with an inbuilt alarm.
- Supports Cardiology, Vascular & Neurology Balloons.
- 2 Modes – *a. Long Pulse for high volume balloons*
b. Short Pulse for low volume balloons

Benefits:

- **Prevents Infection:** Reduces accumulation of dust and other pathogenic particles on balloons as compared to manual cleaning.
- **Increase life:** Reduces negative pressure time and maintains elasticity of balloons which is otherwise compromised in manual cleaning.
